Newchwang, Feb. 28.—According to a person who has just returned here from the front the Japanese are shelling Mukden with eleven-inch mortars. The bombardment which was recently commenced is further reported to have caused great damage far behind the Russian lines.

Advices from Chinese sources say that a general engagement is in progress all along the line. The heaviest fighting is reported to be occurring on the Japanese right and Gen. Kuroki is said to be sweeping far north and threatening to strike the Russian back on the railroad.

A special force is reported to be moving from the south and east with the intention of cutting off the Russians' communication by railroad from Vladivostok.

### Japanese Becoming "Offensive."

St. Petersburg, Feb. 28.—A despatch from Gen. Kuropatkin dated February 26 says: "The enemy is continuing the offensive against the front of our Tsinkhetchen detachment and has turned both its flanks. The Japanese have also advanced against Kantie pass, turning our left flank but all his attacks at Tangu and Beydaling have been repulsed. His offensive movement against Bomapudza has also been repulsed. At some positions our riflemen forced the Japanese outposts to retire. Col. Gorskoy was severely wounded."

### Desperate Fighting.

Madyadani, Manchuria, Feb. 28.—After fighting of the most desperate nature the Russians remained Sunday in possession of Che and Da passes against which the Japanese had been flinging themselves madly from noon till dark. The Russians who were greatly outnumbered sustained repeated attacks some units losing as high as 50 per cent. in killed or wounded in hand-to-hand fighting with the bayonet.

## JUDGE SWAYNE ACQUITTED

Senate Sitting as a Court of Impeachment Finds Accused Not Guilty as Charged.

### NOT EVEN A MAJORITY FOR CONVICTION

Although It Required a Two-Thirds Vote—Senators Voted Mostly Along Party Lines—The Closest Vote Was on the Last Article Which Was 35 for Conviction to 17 Against.

Washington, Feb. 28.—The senate sitting as a court of impeachment for the trial of Charles Swayne, district judge for the northern district of Florida, has acquitted him on all of the 12 articles of impeachment brought by the house of representatives. On none of the articles was there even a majority for conviction although it required two-thirds to convict. The closest vote was on the last article, the contempt case of W. C. Oneal when 35 senators voted guilty and 17 not guilty, while on two articles only 13 senators voted for conviction. The voting for the most part was on party lines, though there was not a strict alignment on any article. At the conclusion of the voting the presiding officer directed the secretary to enter an acquittal upon the records and the court then adjourned without delay.

Judge Swayne was not in the senate during the roll calls, but in the president's room just back of the chamber. The result of each ballot was sent to him by his attorneys. Five of the house managers attended during the proceedings.

### FERRYBOAT SUNK.

At Cairo, Ill., Floating Ice Cut Down the Katherine While Loaded with Passengers.

Cairo, Ill., Feb. 28.—The ferryboat Katherine, which plies between Cairo and Bird's Point, was struck near here by a large piece of ice and sank in several feet of water. Many passengers were aboard the boat including a number of Cairo traveling men and a panic followed the sinking of the vessel. The passengers, after much difficulty, were all taken off in safety. The Katherine is an old boat and has been in service many years. Ten years ago she was overturned in the middle of the Ohio river by a severe storm and a dozen or more lives were lost.

### Policeman Killed Teacher.

Chicago, Feb. 28.—Daniel Herman, a Chicago policeman, shot and instantly killed Miss Minnie Mulveil here. Miss Mulveil was a teacher in St. James parochial school. While walking on the street she was approached by Herman. The two spoke together for some time. Finally angry voices were heard. Herman was seen to draw a revolver, point it directly at the woman and fire. Miss Mulveil fell dead on the sidewalk. Herman escaped.

### Would Put It in Constitution.

Washington, Feb. 28.—Senator Dubois has introduced in the senate a joint resolution providing for a constitutional amendment prohibiting polygamy and polygamous cohabitation.

Chairman Cullom, of the senate committee on foreign relations, says the committee will sit daily until some decision is reached in relation to the Santo Domingo protocol. It is expected a report will be made on the first day of the special session of the senate to consider executive business.

## BIG FIRE AT NEW ORLEANS

Vast Freight Terminals of the Illinois Central Railroad with Contents Destroyed.

### LOSS ESTIMATED AT \$5,000,000.

The Fire Destroyed Wharves Extending a Distance of More Than Ten Blocks, with All the Freight Stored There, Besides Two Grain Elevators and Contents Will Be Immediately Rebuilt.

New Orleans, Feb. 28.—The vast freight terminals of the Illinois Central railroad, known as the Stuyvesant docks, were destroyed Sunday night by fire, involving millions of dollars loss and striking a serious blow to the immense export trade of the city. Nearly a dozen squares of modern wharves and freight sheds, two magnificent grain elevators, hundreds of loaded cars and vast quantities of freight, including 20,000 bales of cotton, were destroyed, together with a large number of small residences.

With the fire that destroyed its immense export terminals still burning though beyond the power to do further damage, the Illinois Central railroad announces that as soon as the rains cool forces will be put to work to clear away the debris and Stuyvesant docks and elevators will be promptly rebuilt on a more substantial scale than before. Meantime the officials of the road are engaged in the formulation of plans that will enable them to handle the traffic now on its way here from the west and to avoid any material diversion of freight from this city.

Conservative estimates figure the immediate loss by the fire at \$5,000,000, divided as follows: Two elevators, warehouses, sheds, \$2,500,000; 23,000 bales of cotton, \$920,000; 700,000 bushels of grain, \$385,000; 15,000 barrels of sugar, \$300,000; cotton seed cake, 130 carloads, \$977,500; lumber, \$16,625; cement, \$54,250; meal, 20 cars, \$10,000; sundries, \$150,000; 500 freight cars, \$375,000; ships, damaged, \$50,000; city fire department, two engines and six horses, \$15,000; private property and other damages, \$216,000.

The railroad company carried its own insurance and the contents of the various elevators and sheds were insured in local and foreign agencies.

The wharves covered 4,550 feet, over a distance of ten blocks. Of this wharfage 3,500 feet and what it contained was destroyed, their remainder at the upper end of the terminals being saved through the fact that the wind blew strongly in the opposite direction. The destroyed wharf cost \$500,000. Elevator "D," leased to Harris, Scott & company, of Chicago, cost \$300,000 when built and elevator "E," which was operated by the Illinois Central, cost \$400,000.

Apparently no lives were lost in the fire, though there were many narrow escapes of those who were engaged in fighting the flames, owing to its rapid spread, and lives were constantly endangered by debris of all kinds that was whirled through the air. The escape of the two fire engines was cut off and their crews had to run for their lives. Driver Charles Richardson of No. 6 being painfully hurt.

The fire started in the conveyors to elevator "D." It spread with remarkable rapidity, sparks dropping into oil barrels on the wharf and extending the flames in every direction. Ten ships were lying at the docks when the fire started and all except two escaped without damage. The Indian, of the Leland line, had her rails, cabin house, masts, etc., wiped clean off and the Cyclone was burned about the bow and sides. All the tugs in the harbor that had steam up hurried to the scene when the fire started and by heroic efforts succeeded in pulling the steamers into the river out of reach of the flames.

In addition to the railroad property the fire destroyed the Crescent Ice company plant, many small stores and a large number of small residences, and many pathetic scenes were witnessed as the occupants of them struggled to save their small belongings at the risk of their lives. The fire will temporarily throw out of employment a large number of employees, but this loss will be compensated by the very much larger number which will be employed in the course of a few days in clearing away the debris and re-constructing the terminals at the highest attainable speed.

Aside from the tremendous loss involved in the destruction of property, the fire is a calamity to New Orleans in the temporary abatement of the immense export business of the Illinois Central, particularly in the matter of grain shipments.

The Stuyvesant docks, completed in 1897, cost \$500,000. These docks were worth millions to the city of New Orleans as they brought to its commerce and trade which never had gone there previously because of a lack of proper facilities.

### DISGRACEFUL CAROUSAL.

Heretofore Respectable Professional Men on the Down Grade.

Dr. J. A. and John Ennis are brothers. The former being engaged in the practice of dentistry, with offices over the Ada National Bank.

These two gentlemen came to Ada about one year ago, and it is said have done reasonably well in the practice of their professions. Ada society has shown them kindly, and some times, almost indulgent consideration. But they went wrong, Monday afternoon.

It appears that the two brothers began drinking, and continued to do so through the night. In their drunken carousals, the bedding on which they sleep in the office was set afire, which was consumed after being thrown in the alley. The building was "shot up" and other disgraceful acts were done which are only compatible to drunken and low bred revelry.

The city marshal very properly locked them in the calaboose this morning.

R. O. Wheeler authorizes the announcement of his candidacy for the position of Recorder, Assessor and Collector of the city of Ada, subject to the action of the democratic primary. Mr. Wheeler is well known in Ada, having until lately been a member of the hardware firm of Nettles and Wheeler. He is well qualified to fill the position to which he aspires. There is no more polite, courteous and accommodating gentleman than Mr. Wheeler, which together with his qualifications, will guarantee the city a most efficient officer in case he is nominated.

The News recommends to the democrats of Ada that they give him careful consideration. Mr. Wheeler says if elected he agrees to give his entire time to the duties of the office.

### CANNERY FOR OKLAHOMA

They are Getting There all Around Us.

Oklahoma City, February 28.—Oklahoma City will have a big canning plant in operation during the coming summer, one that will give employment to one hundred bread winners at the minimum and one hundred and seventy-five at the maximum. The plant is to be installed by the Hastings Industrial company of Chicago and much of the machinery is already here. Attorney Shirk, who is interested in the enterprise, states that the plant will be ready for operation by April 1.

The plant will have a capacity of 20,000 cans every ten hours and may be operated continuously when necessary. During the summer season all kinds of fruits and vegetables will be canned. But the enterprise will not close with the end of summer, but will operate continuously throughout the year. During the winter months our attention will be given to canning pork, Boston baked beans, lye hominy, pumpkins and squashes.

This new industry will give a large weekly payroll to Oklahoma City and should greatly stimulate retail trade. It should also give the citizens of Oklahoma canned goods at reasonable prices, while also giving the farmers a good home market for fruits, vegetables and other products.

"That's just my luck. I've bought a pair of shoes at another store just now, but I thought I'd come in and price your shoes. I'm sorry now." We hear such complaints almost every day. All we can say is come here first. —Chapman. 299-6t

### BAILEY MEANS BUSINESS.

It is Now Strictly Up to the Republicans.

Senator Bailey is still militant on the statehood proposition. Yesterday in the senate he offered a bill creating a state of Oklahoma and Indian Territory as a rider to the Indian appropriation bill. This will be pressed if the conference committee fails to agree. By thus placing the direct question of joint statehood for these territories before congress, leaving out the contention that has arisen over Arizona and New Mexico, he will force the issue. No excuse can be offered for refusal to adopt the amendment, except a direct refusal on the part of the majority party to give us statehood on our own merits.

The conference committee will hold its first meeting this morning. It is composed of the following:

Senators—Beveridge and Nelson, republicans; Bate, democrat.  
Representatives—Hamilton and Powers, republicans; Moon, democrat.

### BAILEY THE GREAT.

Offers New Statehood Bill Admitting Oklahoma and Indian Territory.

Washington, Feb. 28.—In the senate Monday, Senator Bailey of Texas introduced as an amendment to the Indian appropriation bill, a bill creating one state of Oklahoma and the Indian Territory.

He hopes this will pass if the Hamilton bill is defeated. It is a rider to the appropriation bill.

The bill offers a way out of the present mess and unless some agreement is reached as to the Hamilton bill it will have strong support in both houses.

### Original Settler Dead.

Lawton, Ok, Feb. 28.—Ben F. Keith of El Reno, the oldest actual settler of Oklahoma, and who built the first house in Oklahoma proper, died at his home, aged 67 years. Mr Keith came to this country in 1872, at the time of the establishment of the Burlington Indian Agency.

J. I. Warren requested us to announce that he is a candidate for the office of Recorder, Assessor and Collector of the city of Ada. ## CAPITULATION

To the extravagant business methods of the times would have made the 1904 new business record of the Mutual Benefit comparatively easy of accomplishment, but the spirit which incited the efforts of its management in 1904 was the same as for sixty years past, to wit: to furnish indemnity against untimely death with the utmost reasonable economy consistent with the utmost attainable certainty that the policies will be paid when due. The Company last year reaped the reward of its past thrift and fair practices. It was a year rife with criticism, and, therefore, a propitious year for the Mutual Benefit. Its Sixtieth Annual Statement, compared with its fifty-ninth, shows but one decrease, which, as in 1903, was in the expense rate, which is a powerful lever with which to move a discriminating public. The increases were remarkable, and as follows:

In Premium Receipts	\$1,029,957.39
In Total Receipts	1,244,332.61
In Amount Paid Policy Holders	556,992.37
In Assets, Par Values	5,444,838.78
In Assets, Market Values	5,778,901.15
In Surplus, Par Values	274,658.39
In Surplus, Market Values	608,720.76
In Insurance Issued and Revived	6,953,653.00
In Outstanding Insurance	26,337,523.00

The Mutual Benefit does not seek to blind the public with brilliant figures. It does not worship the brazen calf of volume, but seeks the approval of the public on the intrinsic justice and fairness of its methods, which are increasingly appreciated by its members, and tend strongly to retain them in the membership, and have been manifestly conducive to the Company's steady and healthy advancement.

**THE COLORADO CONTEST.**  
Denver, Feb. 28.—Printed copies of the findings of counsel for James H. Peabody and Alva Adams in the gubernatorial contest, were placed in the hands of each member of the committee which heard the evidence in the case and the committee began consideration of its report which is to be submitted to the joint convention of the general assembly on Thursday next.  
Peabody's brief claims his election by 2,433 majority, this result being reached by rejecting the entire vote of 104 Denver precincts and a number of precincts in Adams, Boulder, Conejos and Pueblo counties which gave democratic majorities. The claim is made that the returns are so permeated with fraud that the true results of the election in them can not be determined.  
Gov. Adams brief claims that he has a majority of 6,350 after eliminating all precincts in which the fairness of the election has not been proven.

**German Cathedral Dedicated.**  
Berlin, Feb. 28.—Emperor William's Mecca for protestants, the evangelic cathedral here, was consecrated Monday in the presence of a most brilliant assemblage among whom were delegates from all the protestant nations. The service was simple and statesly and was enriched with wonderful music. Bishop Potter of New York and a long list of American clergy sent a lengthy telegram of congratulation to the emperor.

**To Return to San Francisco.**  
St. Petersburg, Feb. 28.—Yielding to the demand of the United States, Russia has not only ordered the officers of the cruiser Lena who violated their parole to return to San Francisco, but has reduced them one grade as punishment. The only excuse offered was their youth.

The battleship Maine and the supply ship Culgoa sailed yesterday from New York for southern waters. The Maine goes to join the battleship squadron of the North Atlantic fleet, which is now at Guantanamo.

**SENATOR OR NOTHING.**

**Thomas K. Niedringhaus, Republican Candidate for Missouri Senatorship, Makes a Statement.**

Jefferson City, Mo., Feb. 28.—Thos. K. Niedringhaus, republican caucus nominee for United States senator, has issued the following statement: "There have been stories afloat during the past few days as to my movements and intentions. In reply to all of which I have only this to say: I do not expect to withdraw from the senatorial race. I could not and would not accept any other position except that of senator at the hands of the legislature, and should I not be elected I will go back to my business and devote as much time in the future to the interests of the republican party as I have in the past. As to my whereabouts during the past two weeks, I desire to say I have not been outside the state of Missouri."

From democratic sources it is learned that a democratic caucus of members of the house is planned early this week, to decide whether or not to throw sufficient democratic votes to Richard C. Kerens to elect him over Niedringhaus.

**Roosevelt Gives Souvenirs to Museum.**  
Washington, Feb. 28.—President Roosevelt has presented to the National museum, as a souvenir, several articles, comprising an outfit of the gauchos of the South American plains. **Won't Investigate Salt Trust.**  
Topeka, Kan., Feb. 28.—A house concurrent resolution by Mr. Jones, of Norton, calling for an investigation of the salt trust was defeated by a vote of 57 to 19. It was necessary for the resolution to receive a two-thirds vote or 63 votes. A call of the house failed a develop enough members to save the resolution.

Peoria, Ill., Feb. 28.—The trustees of the Christian church, a large and influential congregation in this city, met Sunday night and decided that the pastor they call to fill the vacancy in their pulpit must have the following seven qualifications: Not over 35 years old; must be married; must be an evangelist; must be a lodge man; must be a mixer; must be a crank and must be willing to assume the burdens of his flock.

**GEORGE S. BOUTWELL DEAD.**  
Former Secretary of the Treasury the Victim of an Attack of Pneumonia at Groton, Mass.  
Groton, Mass., Feb. 28.—After an illness of a few days George Sewall Boutwell, former governor of Massachusetts and former United States secretary of the treasury, died at his home here, aged 87 years. He was stricken with pneumonia last Friday night and owing to his extreme age was unable to rally. For more than 60 years Mr. Boutwell had been in public life beginning with his career as a lecturer at the age of 19. At 24 he was elected to the Massachusetts legislature and at 33 he was chosen governor of the state. Although elected to these offices as a democrat Mr. Boutwell became active in the organization of the republican party. He was a personal friend of President Lincoln.

Mr. Boutwell was an outspoken abolitionist. He served in the national house of representatives from 1862 to 1868 inclusive and was a member of the commission which reported the fourteenth amendment and conducted the debate in the house. He was secretary of the treasury in President Grant's first cabinet. In 1878 Mr. Boutwell was elected to the United States senate, where he served for six years. Mr. Boutwell was among the most bitter opponents of the Spanish war. In fact so strong was his conviction that after the war was declared, he left the republican party and with the formation of the anti-imperialist league became its president, which office he held at the time of his death. Mr. Boutwell was the author of books on politics and finance.

**MORE DESERTIONS.**

**Three More Representatives Desert Niedringhaus in His Contest for Missouri's Senatorship.**

Jefferson City, Mo., Feb. 28.—A new factor was added to the senatorial race on the 33d ballot of the legislature, denuded over the selection of a successor to United States Senator Cockrell, when Representative Casey, of Miller county, bolted the forces of T. K. Niedringhaus, the republican caucus nominee, and voted for Col. D. P. Dyer, of St. Louis, United States district attorney. Representatives Moberly, of DeKalb, and Silverwood, of St. Charles, also deserted the "regulars" voting for Lieutenant Governor McKinley. The vote was as follows: Niedringhaus, 45; Cockrell, 57; Kerens, 12; McKinley, 7; Dyer, 1; Godfrey, 1.

**TROUBLE FOR RAILROADS.**

**Ice Gorges and High Water Causing Anxiety in Parts of Nebraska—One Bridge Gone.**

Omaha, Neb., Feb. 28.—Ice gorges and high water was the cause of considerable anxiety to railroads in several parts of the state. The Missouri Pacific was unable to use its tracks between Omaha and Plattsmouth on account of high water at the latter place. The Rock Island bridge at South Omaha has been taken out and that road was forced to detour trains over the Burlington. The Platte river is still badly gorged at Ashland and the railroad bridge is in danger. Temporary repairs are being made by other roads and large shifts of men are watching the rivers at critical points.

**Another Mine Disaster.**

Bluefield, W. V., Feb. 28.—As a result of an explosion in shaft No. 1, of the United States Coal & Coke company, at Wilcox, 23 miners are supposed to have lost their lives and it is possible that the number will exceed this. Fifteen dead bodies have been taken from the shaft. It is barely possible, but not likely, that some of the remaining entombed miners will be rescued alive. The explosion was of terrific force and shattered glass windows a mile distant.

## JUST OPENED

I have opened a first class Blacksmith and Woodworking shop, where repairing of all kinds will be done right. I also do general plow work and guarantee all work. My shoeing is done on correct methods and shoes are made to fit the foot. Hones' work at reasonable prices is my motto.
